From: Councilman Gene Hart

RE: Mold Abatement, Christian Metz Building

December 17, 2012

Studies by Stohl Environmental have disclosed serious mold infestation at the Christian Metz Building located at 12 School Street. It is the intention of the Board to allow the use of this historic building by our Historical Society and the Friends of the Burchfield Nature and Art Center for educational and other opportunities. This condition must be remedied prior to the Boards authorizing such use.

Kindly authorize the Supervisor to advertise for cost quotes to establish a mold abatement program at the Christian Metz Building
