**Re: 36" Sewer Replacement  
Professional Services**

Honorable Board Members,

As part of the Town of West Seneca's ongoing Order on Consent with the New York State Department of Environmental Conservation we are proposing to install a new 36" overflow sewer between the siphon under Cazenovia Creek and Plant 5.

We would like to complete a subsurface investigation and geotechnical report in order to determine the soil conditions within the project area. This information will be provided in the Contract Documents. We have obtained three (3) separate quotes for this work.

SJB Services, Inc. has provided a proposal to complete the work for the estimated amount of \$5,300. We have worked with SJB numerous times and feel they are qualified to complete the work. Funding for this work is budgeted under the \$30M capital sewer project.

Please authorize SJB Services to perform the work included in this proposal.

Very truly yours,

A handwritten signature in black ink, appearing to read "Jason A. Foote".
