JOHN M. RUSINSKI

August 10, 2012

Dear Honorable Town Board:

Quasar Energy Group is submitting a request to erect a holding tank on North America Drive for Buffalo BioEnergy. The height variance will be a total of 69'. Pursuant to Section 120-34B, a building height variance would be granted by the Town Board.

If you have any questions in regards to this matter, please contact my office.

Sincerely,

John A. Gullo

RE: Digester tank height

Dear John,

The proposed main digester tank for Buffalo BioEnergy will be 45 feet tall to the wind girder and then an additional 29 feet to the top of the flexible membrane for a total height from the ground of approximately 69 feet.

I trust that this is the information that you were requesting

Best regards,

Alan R. Johnson
V.P. Project Management
