Re: Bid date for replacement of water main on East & West and Angle Roads

Honorable Town Board,

Please approve setting a bid date of March 10, 2016 at 11:00am for replacement of water main on a portion of East and West Road as well as Angle Road. These are areas of town owned water main recommended to be repaired based on information provided by the Erie County Water Authority, and replacement of the water main will allow the highway department to mill and resurface Angle road after the water main is replaced. East and West road is scheduled for improvements by the county in the next couple of years, so replacing the water main now on East and West would minimize restoration costs given the road will have a full depth replacement. If approved, Bid Documents will be available in the Town of West Seneca Clerk's office on February 16, 2016 at 9:00am.

Very Truly yours,

Steven R. Tanner, P.E.
Town Engineer
