II. Discussion

A. Playground Revision

- a. Entire area will be rubber
  - all-inclusive, less upkeep
  - grant will help pay for this
- b. Will try to match colors with Splash Pad colors
- c. Design/pieces
  - tall tower taken out. Can have taller at other parks
  - Sway fun? Larger, more expensive piece but easily accessible and usable by all.
  - Global motion or We-Go-Round? Only one other Global Motion in WNY so will make this playground unique
  - Swings: Would like a Friendship swing but don't want to lose a bucket swing. Will look into T-swing as far as pricing and space.
  - Would like a shade area between the playground and Splash Pad. Highway department can do asphalt, Parkitects can do shade structure.
- d. Budget
  - Highway department will do removal, excavation, stone base, concrete, and site restoration.
  - Will do Community Build
  - Need to get playground ordered to keep current pricing but shipping can be delayed until Feb to avoid having to store for so long.
  - Freight cost is an estimate
- e. Presentation at the Board meeting on August 29. Parkitects will present. Brian will prepare agenda item.

Meeting adjourned at 1:58. Motion by Kellie Kostek, 2nd by Marissa Straus
