Town of West Seneca Code Enforcement

**Re: Canisius School
Field expansion**

Dear Members of the Planning Board,

Our office has reviewed the revised plans and reports that were recently resubmitted due to comments from agencies. Our original approval still stands as their revision provides even more stormwater storage than the original design.

Therefore, it is the recommendation of this department that the Board accept this project pending any approvals from any outside agencies

Please contact me should you have any questions or concerns.

Sincerely,

David H. Johnson, CPESC, CPSWQ
