

PUBLIC HEARING

JUNE 29, 2023

**PIN 5268.54 - Intersection Improvement Project
NY Route 240 (Orchard Park Road) at Fisher and
East & West Roads**

Project Location

Purpose & Need

The main purpose of this project is to alleviate safety concerns (i.e., higher than statewide average crash rate and unclear lane designations) and mobility concerns (i.e., vehicle delay).

The project is needed to correct safety and mobility deficiencies including:

- Overall crash rate higher than the statewide average
- Unclear lane designations
- Delays on Fisher Road

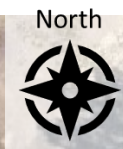

Project Objectives

- Improve safety conditions at the intersections
- Provide intersection upgrades that improve vehicular traffic operations, enhance positive guidance, and enhance mobility (reduce delay)
- Restore the existing asphalt pavement surface

Existing Intersection NY Route 240 at Fisher Road

Fisher Road (CR 459)

NY Route 240 (Orchard Park Road)

Existing Intersection NY Route 240 at East and West Road

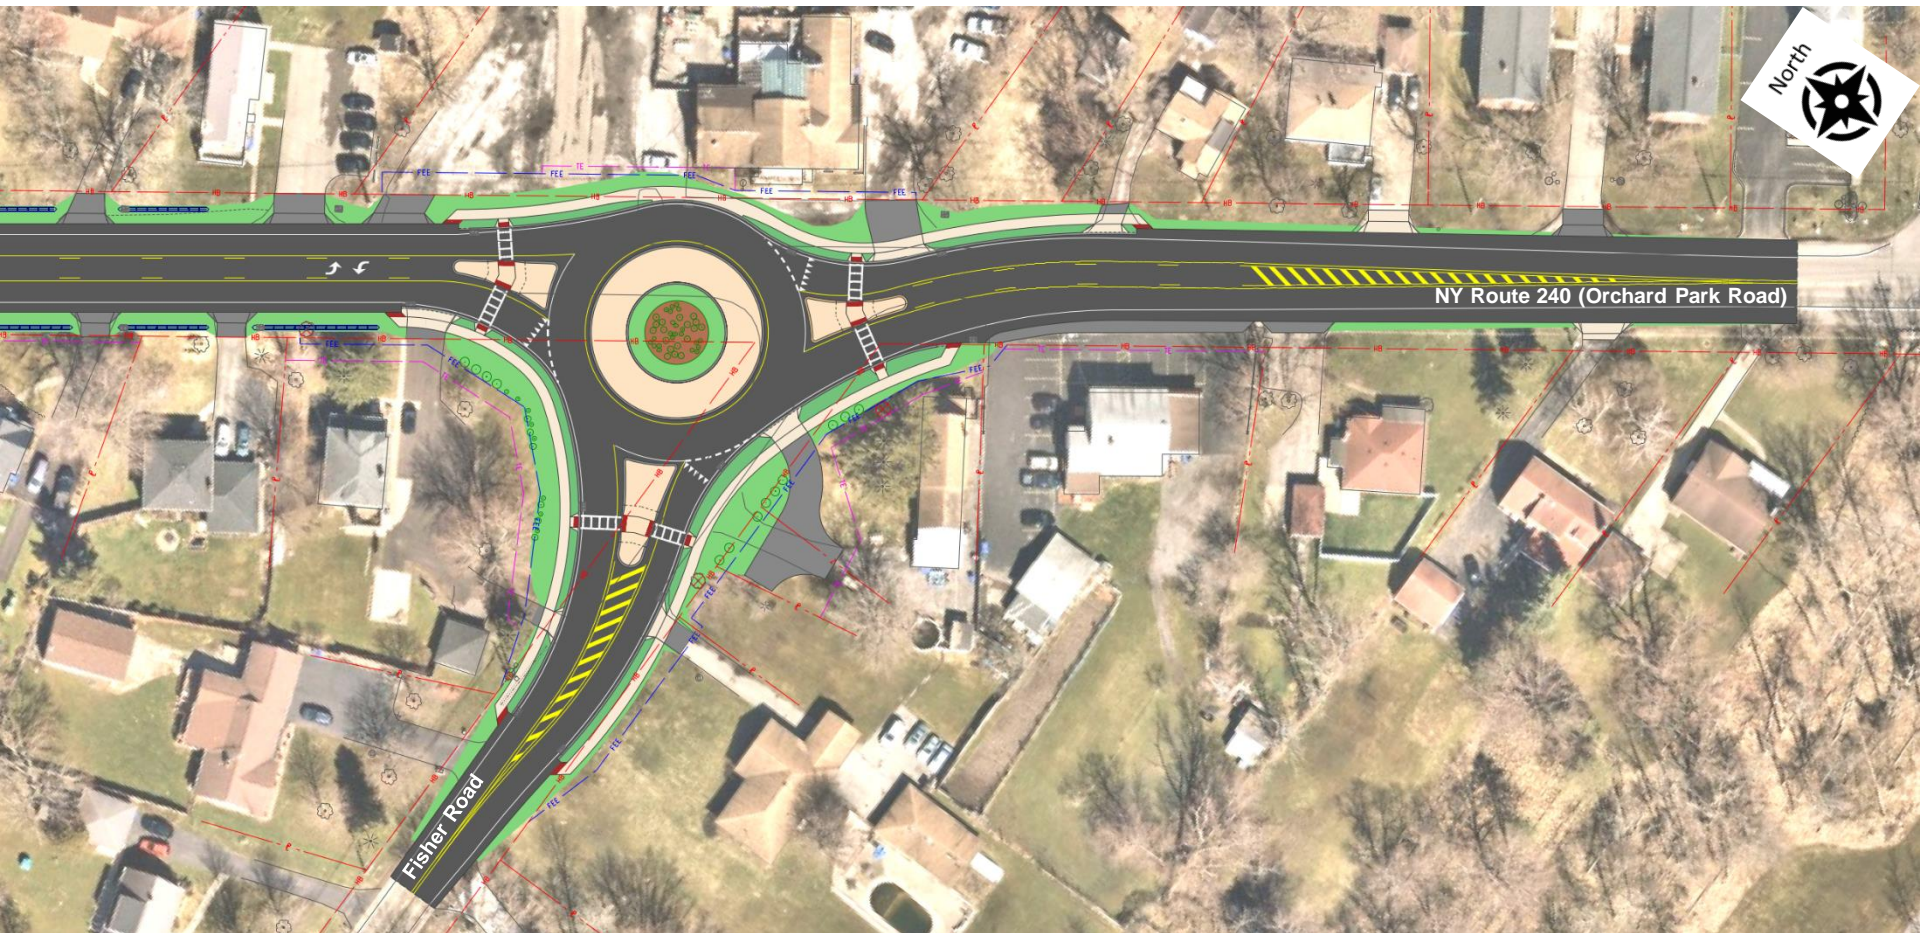

Preferred Alternative

The preferred alternative includes:

- Roundabout at the intersection of NY Route 240 and Fisher Road
- At the intersection of NY Route 240 and East and West Road:
 - Widening to provide a dedicated southbound left turn lane and standard width northbound right turn lane
 - Upgraded pedestrian signals & reinstitute shoulder area
- NY Route 240 would be widened between Fisher Road and East and West Road to include a center two-way left turn lane

Proposed Intersection NY Route 240 at Fisher Road

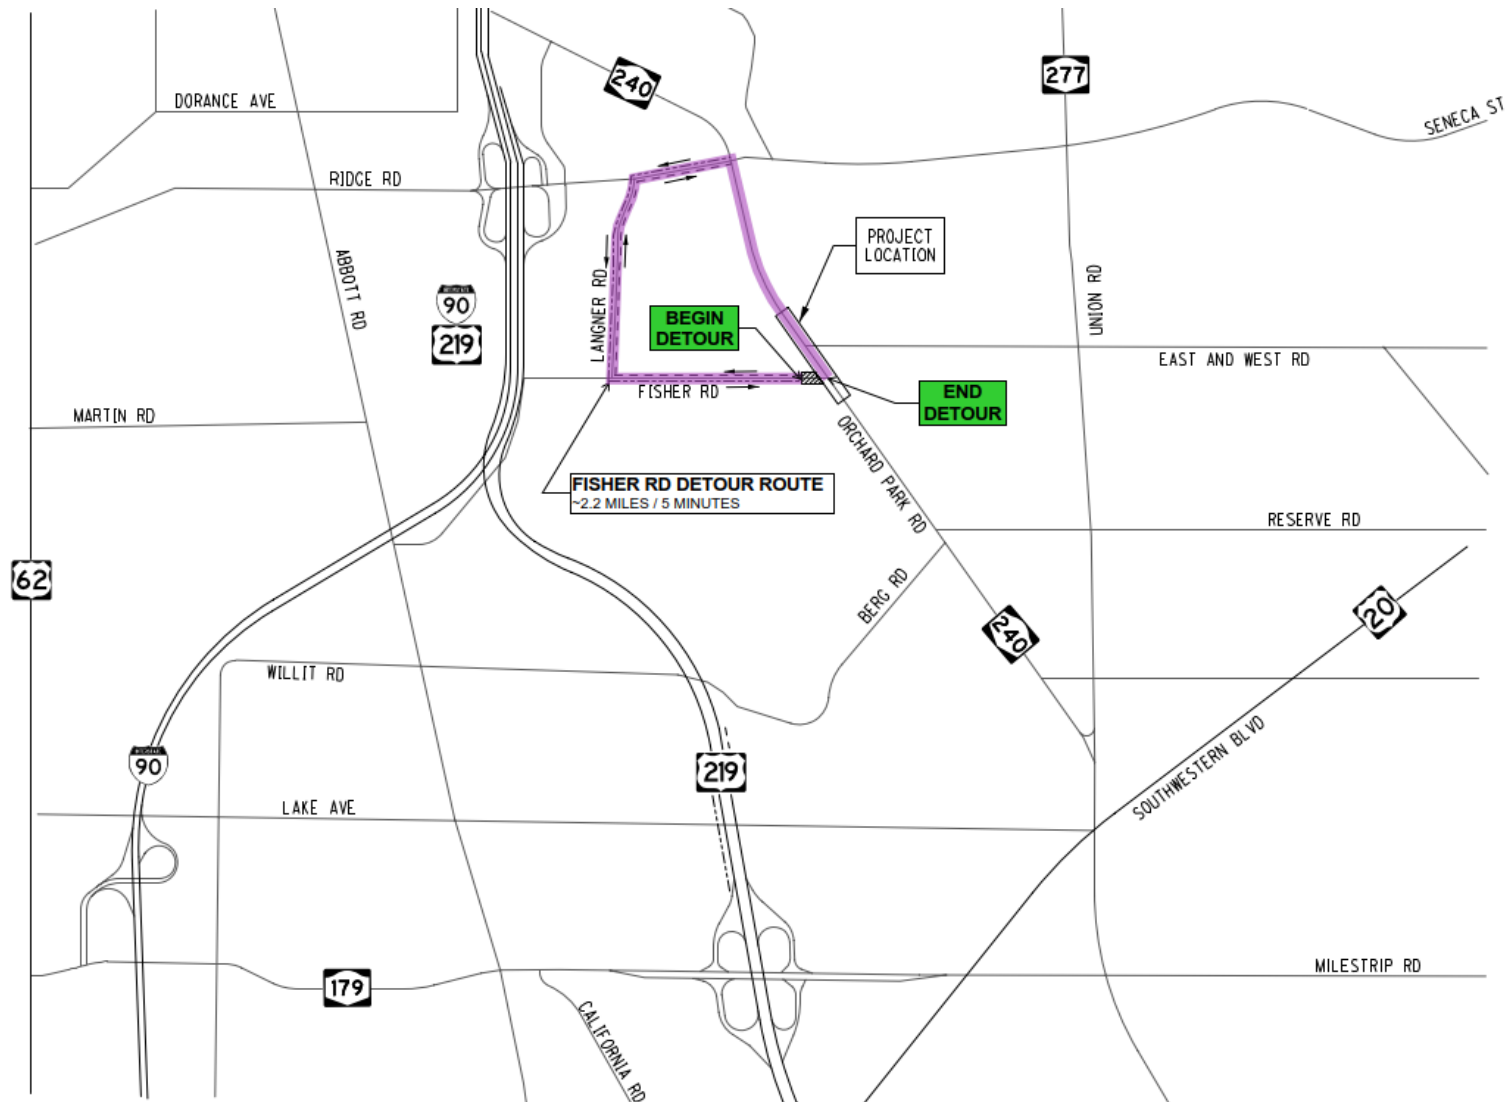

Proposed Intersection NY Route 240 at East and West Road

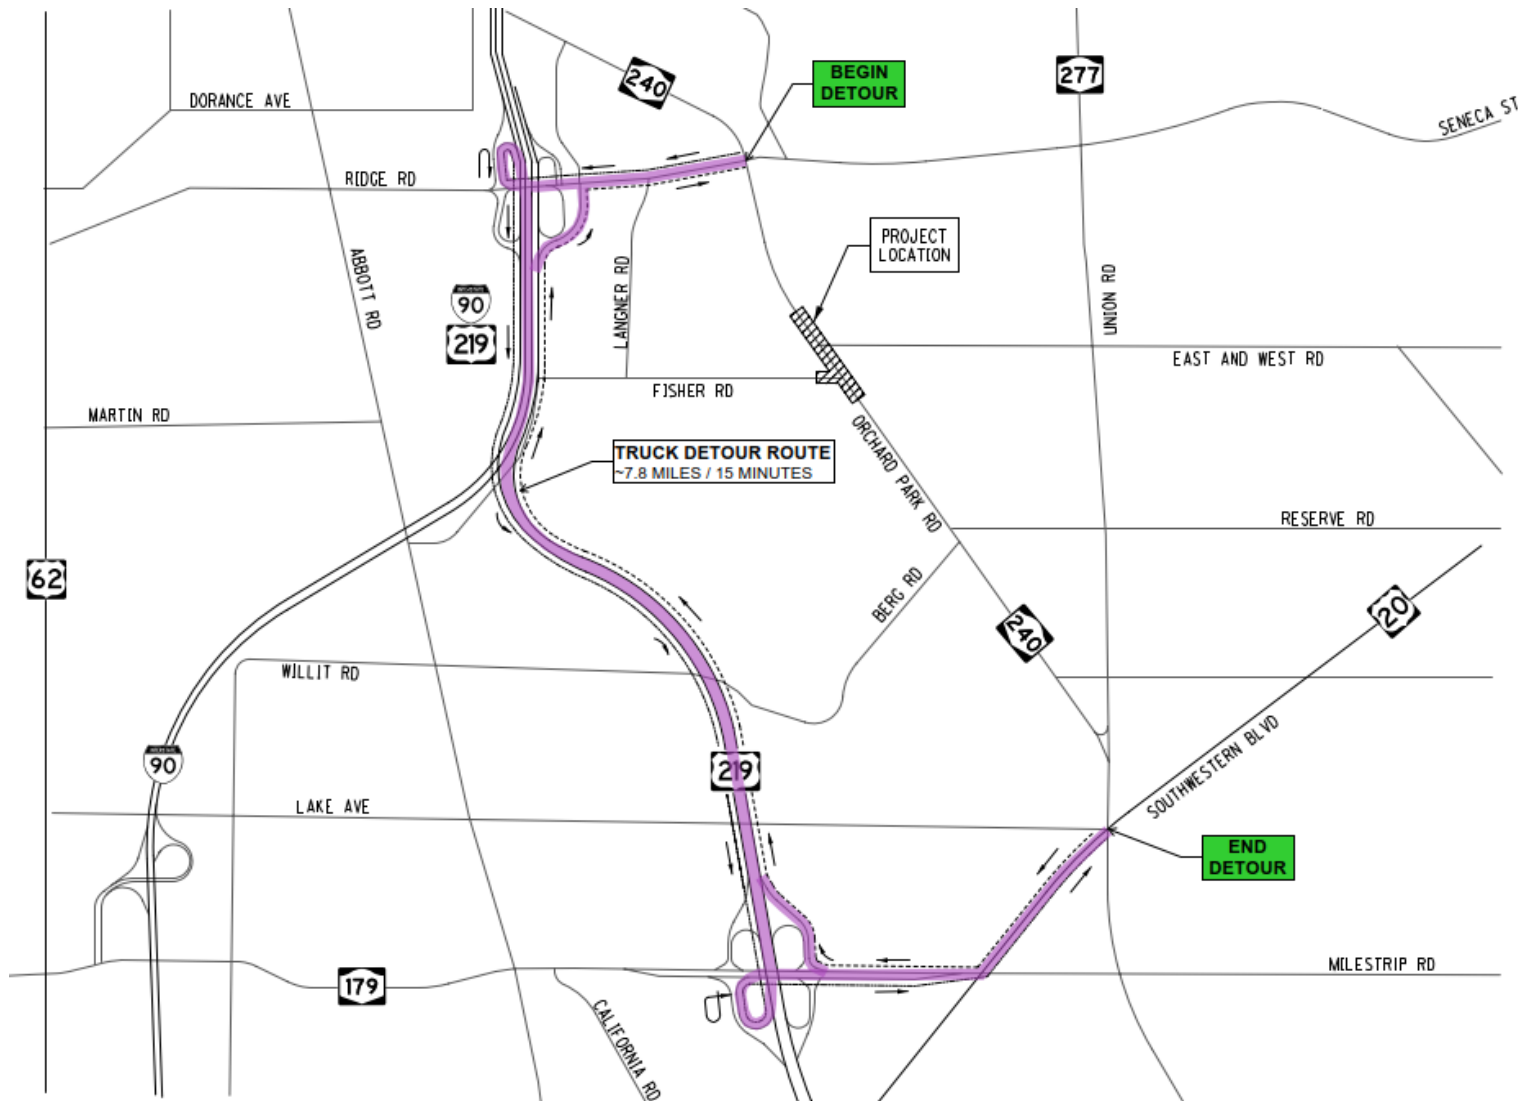

Work Zone Traffic Control (WZTC)

- Traffic will be maintained along NY Route 240 using temporary lane/shoulder closures and lane shifts.
- Anticipated closure of Fisher Road at NY Route 240 with an off-site detour. Allowing the closure of Fisher Road will simplify and accelerate construction of the roundabout, thus minimizing construction impacts to the traveling public.
- A truck detour for NY Route 240 will be implemented.
- Night work is not anticipated

Proposed Fisher Road Detour

Proposed Truck Detour

Right of Way Acquisitions

Type of Take	Quantity of Takes	Area (Acres)
FEE	10	0.362
Temporary Easement	10	0.174
Properties	14	<i>Total = 0.536</i>

Parcels of land need to be acquired for construction of the roundabout and roadway widening. No residential buildings need to be acquired, and the acquisitions are not expected to adversely affect businesses.

Affected property owners will be contacted directly by NYSDOT.

Anticipated Project Schedule

- **Design Approval – Summer 2023**
- **Construction Bid Opening – Spring 2024**
- **Start of Construction – Summer 2024**
- **Construction Completion – December 2025**
