Dear Chairman of the board,

We wish to appeal to the zoning board of appeals in reference to the construction of a 6 ft fence on our property. Our property is situated on a corner lot and open to the street on the side and the front. In order to provide the privacy and protection for our young family we wish to install a 6 ft fence around the side and back yard.

The fence would be of wooden construction. Looking at the front of house from pine cove drive, the fence would begin on the right side, 11' back from the front of the house and run 22' perpendicular toward the edge of the property line. It would then run 90' towards the rear property line and then 90' toward Morris crescent to within 3' of the sidewalk. The fence will then run parallel to the sidewalk to a position 10' back from the front of the house where it will turn perpendicular to the side wall of the house and upto the side wall of the house, approx. 51' in length.

Your kind consideration is greatly appreciated in this matter.

Yours sincerely
