**Re: Preliminary Wetland Investigation – 2± acres
4928 Seneca Street
Town of West Seneca, Erie County, New York**

Dear Mr. Sperry:

Earth Dimensions, Inc. (EDI) has completed a preliminary wetland investigation at the above referenced site for the purpose of identifying potential regulated wetlands and waterways. The site investigation was conducted on October 2, 2019. EDI identified 0.9± acre of wetland as defined by the U.S. Army Corps of Engineers (USACE) wetland delineation manuals within the investigation area. It is our professional opinion that this wetland is likely regulated by USACE under Section 404 of the Clean Water Act.

The New York State Department of Environmental Conservation (NYSDEC) On-line Resource Mapper does not depict any Freshwater Wetlands within or adjacent to the site. Thus, NYSDEC has no apparent jurisdiction over any wetlands under Article 24 of New York Conservation Law.

Based on this investigation, it is our professional opinion that if no impacts are proposed to the depicted wetland, the project may proceed without the need for a Section 404 permit from USACE. If, however, impacts are proposed to the depicted wetland, a detailed wetland delineation and Section 404 permit application will need to be prepared and submitted to USACE with a request for a Section 404 permit.

If you have any questions or would like a price quote to complete a detailed wetland delineation, please contact our office at (716) 655-1717 or email slivingstone@earthdimensions.com.

Very truly yours,
Earth Dimensions, Inc.

Scott J. Livingstone
Wetlands Operations Manager

Encl.

**APPROXIMATE
WETLAND ACREAGE**

0.9 acre

*Please note, upon completion of a detailed wetland delineation, the amount and/or size of the wetlands may vary. A preliminary wetland investigation only provides the approximate size and location of federally jurisdictional wetlands.
