Re: Princeton Park Subdivision
Request for Authorization

Dear Honorable Town Board Members,

In order to have electric supplied to the new street lighting installed as part of the Princeton Park Subdivision, NYSEG requires an authorization by the town.

Attached is the "Application for New Street Lighting" outlining that the town understands that this is an energy service only connection and that the cost to energize the street lights will be paid by the Town of West Seneca. The developer provides a check to the town for the full cost of the connections. Please authorize the Supervisor to sign the new lighting service application in order to get the street lighting energized. These lights are wholly inside of the existing Princeton Park Lighting District 64 in the Town.

Sincerely,

Ronald Pfeil
Principal Engineering Assistant
