RE: Roof Replacement Fireman's Park

Dear Honorable Town Board Members:

As you may know the 2021 budget allocated money for the roof repair/replacement at Harlem Rd Park. The total job came in under budget leaving us the opportunity to address another building's needs this year. It is my recommendation that we use the funds available to replace the roof on the maintenance building at Fireman's Park. Please allow the Highway Superintendent to get quotes and move forward with the replacement process. Funds will be available in account 1.990.975

Sincerely,

Brian Adams
